FOSTER COLLABORATION WITH MICROSOFT TEAMS

Cloud Briefing
In this workshop, an Opsgility expert will brief your team on how Microsoft Teams can help your staff be more engaged and productive, work from anywhere and on any device, and collaborate securely on company documents and data.

Assessment
After the briefing, we will provide you with a proposed migration path to Microsoft Teams. This plan will include guidance on deploying Teams (by your team or Opsgility), licensing requirements, and an adoption plan to help your staff get productive quickly.

Cost and Credit
The cost of the workshop is $2,500. If your company chooses to work with Opsgility as its Cloud Service Provider, the cost will be applied as a credit on any project-based work.
